

This tenant fit-out included 52,000 square feet of office space on three floors of a downtown Boston high-rise.

In collaboration with Rachel Pike IIDA, we organized the programming and design process through documentation and construction.

A clear and consistent approach was developed with the managing partners from the start of the project that all areas visited by clients would be grouped together in a single reception and conference suite. We designed the balance of the space to be efficient and as flexible as possible. For example, all attorney offices are the same size, to allow interchangeability.

*Completed Fall 1997.*
